LES FLEURONS DU QUÉBEC

On November 21st, 2024, the Corporation des Fleurons du Québec unveiled the 19th horticultural classification of municipalities evaluated in 2024. The Township of Melbourne has retained its 3 Fleurons thanks to its constant efforts over the past three years.

The fleurons are awarded for a period of three years, and are accompanied by a professional assessment report suggesting ways to further improve municipal greening.

Thank you all for your involvement in making Township of Melbourne a welcoming place to live.

SAVE WATER, ONE STEP AT A TIME!

Unfortunately, drinking water is not an inexhaustible resource, and its production is becoming increasingly expensive. Water seems to be abundant in Quebec; however, municipalities are struggling to keep up with growing demand, and restrictions are beginning to multiply. It's easy to change this by simply modifying our water consumption habits.

One step at a time, you can take action to protect our resource and ensure that it remains available to all. Here are a few solutions:

- The bathroom is the kingdom of water usage, and the place where you'll save the most!
- It's easy to collect rainwater with a rain barrel!
